[The Essential Guide to Serial ATA and SATA Express](#) Jan 05 2021 Used in laptop and desktop computers, low-end servers, and mobile devices, Serial ATA (Advance Technology Attachment), or SATA, is the pervasive disk storage technology in use today. SATA has also penetrated the enterprise computing environment by adding hardware components for fail-over, extending command processing capabilities, and increasing device performance and link speeds. If you work in a data center or manage your company's storage resources, you will likely encounter storage solutions that require SATA software or hardware. In this book, leading storage networking technologist David Deming presents a comprehensive guide to designing, analyzing, and troubleshooting any SATA or SATA Express (SATAe) storage solution. Written by an engineer, this book is for those who aren't afraid of digging into the technical details. It explains how SATA/SATAe powers data center applications and how it influences and interacts with all protocol layers and system components. This book covers all of the tasks associated with installing, configuring, and managing SATA/SATAe storage applications. If you are a test engineer, design engineer, system architect, or even a technically skilled gamer who likes to build your own systems, this book will answer your technical questions about SATA/SATAe. With this book, you should have everything you need to implement a SATA or SATAe storage solution.

The Essential Special Education Guide for the Regular Education Teacher Sep 13 2021 The Individuals with Disabilities Education Act (IDEA) of 2004 has placed a renewed emphasis on the importance of the regular classroom, the regular classroom teacher and the general curriculum as the primary focus of special education. This book contains over 100 topics that deal with real issues and concerns regarding the regular classroom and the special education process. These concerns range from requirements for referring a child for an individual evaluation, school discipline, classroom-based assessment, IEP meetings, inclusion and mainstreaming, and various legal requirements relating to IDEA, Section 504 of the Rehabilitation Act of 1973, and the No Child Left Behind act. It stresses the importance that every child with a disability must have goals "to enable the child to be involved in and make progress in the general education curriculum." Other issues interspersed within this text include classroom needs, the planning of individualized education programs, and participation in all aspects of the general curriculum. In order to achieve these goals, support for the regular classroom teacher must be provided so that children with disabilities can be involved in, and make progress in, the curriculum and participate in nonacademic activities.
