Internal Auditing Theory Nov 03 2020 This analytical study examines the function of internal auditing from the viewpoint of its role within organizations and within the economics of societies and governments. Swanson and Marsh place internal auditing in the context of the scientific conceptual framework of Living Systems Theory, and thus provide a basis for a systematic theoretical framework and a theory based on observable, measurable entities. They identify the advantages of using this system to advance the knowledge and understanding of organizations, and also propose a higher level of internal audit functions that can advance modern societies.

Small Things Jun 10 2021 In this haunting tale of love and learning, the existential chaos of a life ravaged by circumstance takes on a rhythm of its own, one bound by loss and loneliness, but also an intelligent awareness of self. Sometimes melancholy, sometimes brutal, occasionally funny and infuriating, a journalist-comrade-lover caught up in the shade and shadow of politics and social injustice faces treachery and betrayal on every level. Set against the backdrop of a cityscape that taunts and tantalises, this is where love fails and passion wanes, "where suffering has no meaning", where an individual escapes death only to find himself confronted with choices wrought by remorse and retribution, by conscience and character. And yet, with all trauma, there is a distinct musicality to the lyrical unpacking that follows a string of small things ...

[Victimology](#) Oct 02 2020 Victimology, Seventh Edition, introduces students to the criminal justice system in the United States and its impact on crime victims. Authors William Doerner and Steven Lab provide a fresh look at the theoretical basis of victimology and then present the key facets of crime and its effects. They examine financial and social costs both to the individual and to the larger community. This new edition uses the theoretical foundation of victimology to establish a clear

conceptual framework and reduce repetition. Emerging trends in the field receive greater emphasis in this edition, including non-adversarial resolutions that offer remediation for crime victims. Crimes like intimate-partner violence and victimization in work or school environments continue to take a toll, and the authors examine efforts to prevent these crimes as well as responses after an incident occurs. Doerner and Lab challenge students to rethink the current response to crime victims, and to develop improved approaches to this costly social issue. Online supplements are available for both professors and students. A new chapter on explaining victimization provides context and a backdrop for examining emerging trends. A new chapter on hate crimes delves into the complexities faced by victims as they negotiate the reporting process. The text is supplemented by learning tools including chapter-by-chapter learning objectives, key terms, illustrative figures and tables, and call-outs to related Internet sites.

**Special Educational Needs in the Early Years** Sep 25 2022 This fully revised and updated edition takes into account current changes in educational policy to provide the reader with comprehensive information about understanding and working with young children with special needs.

**Disability in Context** Sep 13 2021 This brand new book addresses disability issues, including inclusive education, advocacy and empowerment. **More Language Arts, Math, and Science for Students with Severe Disabilities** Oct 22 2019 A followup to the landmark bestseller *Teaching Language Arts, Math, and Science to Students with Significant Cognitive Disabilities*, this important text prepares teachers to ensure more inclusion, more advanced academic content, and more meaningful learning for their students.

**Double Header** Jun 29 2020 He was featured on the front pages of *RollingStone.com*, *Jezebel.com* and was covered by *The Huffington Post*. Both Conan O'Brien and Jay Leno featured him in their opening monologues. Countless news agencies around the world broke the story when he went on Reddit and did an Ask Me Anything (AMA). Ranking as the 4th most popular Reddit AMA of all time (beating out the likes of Peter Dinklage, Bill Murray, Arnold Schwarzenegger and Harrison Ford), DoubleDickDude spent 48 hours discussing his life with a genetic condition known as diphallia. Only 1 in 5.5 million males worldwide are born with two penises. However very few (if any) are born with two working, and by all accounts, attractive penises. After having managed to stay under the radar for over 20 years DoubleDickDude (or DDD for short) amassed thousands of followers on Twitter and Tumblr in a matter of hours. In fact Twitter (temporarily) suspended his account for replying to his followers too many times! For the past year he has taken to writing a more lengthy and detailed account of his life so far. Very little could be detailed during a frenzy of questions from thousands on Reddit. DDD goes from discussing his childhood, and explains how he knew he was special at an early age. His parents support grounded him in his early youth. We find out how he lost his virginity and was exposed to his peers. From there he discusses his wild streak of sexual adventures fresh out of high school. Recapping his favorite questions and answers, discussing sexuality and acceptance DDD covers the gamut. Don't worry, all the saucy and steamy stories he hinted at in his AMA are covered and then some. Like that 7-way orgy he briefly detailed amid the torrent of questions during his AMA. Not to mention the hunky straight gym jock who "went gay" and the poor girl who... shall we say, her lady place was a wreck after one time with DDD. It's all in there and more! Written from first person perspective the narrative is raw, honest and often times gritty. Details are not spared and readers beware, naughty moments are revealed! The next time you see a man on the street with more than an adequate bulge in his jeans, it might just be DDD.

**Conveyancing** May 21 2022 Conveyancing is designed for law students and new lawyers studying applied land law on the Irish Professional Practice Course. As the fourth edition is published at a time when major reform and modernisation of land law and conveyancing is proposed, the text has been fully revised and updated to include reference to proposed reforms, recently published bills and new legislation enacted. This includes new coverage on the Land Act 2005, the Title Act 2006 and the fundamental changes proposed by the Land and Conveyancing Law Reform Bill 2006. In two volumes, the fourth edition also features updated sample documentation and precedents to enable students to consider the procedural aspects of conveyancing. It includes complete coverage of all the essential knowledge needed when practicing conveyancing, including the legal concept of property, and the protection, acquisition and movement of proprietary interests. The principles of conveyancing practice are clearly explained, ensuring that this is an essential text for apprentices and practitioners in this field.

[Introduction to Radar Using Python and MATLAB](#) Feb 06 2021 This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

[Academic Literacy Development](#) Apr 20 2022 This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

Dugard's International Law Oct 14 2021 This fifth edition of International Law: A South African Perspective is now titled Dugard's International Law: A South African Perspective, in recognition of the fact that this work is a continuation of the earlier editions written by John Dugard. The substance of the work has undergone major changes to take account of new developments both on the international legal scene and in South Africa. Dugard's International Law: A South African Perspective presents a South African perspective of international law. The basic principles of international law are described and examined with reference to the principal sources of international law. This examination, however, takes place within the context of South African law. South African state practice, judicial decisions and legislation on international law receive equal treatment with international law as it is practised and taught abroad. The present work is designed to assist judicial officers and practitioners, educate students, and guide diplomats in the intricacies of international law both at home in South Africa and abroad.
