The Impossible Presidency Dec 24 2019 A bold new history of the American presidency, arguing that the successful presidents of the past created unrealistic expectations for every president since JFK, with enormously problematic implications for American politics In *The Impossible Presidency*, celebrated historian Jeremi Suri charts the rise and fall of the American presidency, from the limited role envisaged by the Founding Fathers to its current status as the most powerful job in the world. He argues that the presidency is a victim of its own success—the vastness of the job makes it almost impossible to fulfill the expectations placed upon it. As managers of the world's largest economy and military, contemporary presidents must react to a truly globalized world in a twenty-four-hour news cycle. There is little room left for bold vision. Suri traces America's disenchantment with our recent presidents to the inevitable mismatch between presidential promises and the structural limitations of the office. A masterful reassessment of presidential history, this book is essential reading for anyone trying to understand America's fraught political climate.

[Top Secret America](#) May 21 2022 A shocking examination of the extreme national security apparatus built in response to the terrorist attacks of September 11th After 9/11, the United States government embarked on an unprecedented effort to protect America. The result has been calamitous: Eleven years of unparalleled spending and growth have produced a system to keep America safe that may in fact be putting us in even greater danger—but we don't know because it's all top secret. In this acclaimed bestseller, award-winning journalists Dana Priest and William M. Arkin lift the curtain on this clandestine universe. From the agencies and private companies keeping track of American citizens, to the military commanders building America's first "top secret city," to a hidden army within the U.S. military more secret than the CIA, this new national security octopus has become a self-sustaining "fourth branch" of government. *Top Secret America* is a tour de force of investigative journalism that reveals government run amok and a war on terrorism gone wrong.

America's Best Colleges Sep 20 2019

Degrees and Pedigrees Jan 25 2020 The book answers the questions of how and where America educates

its leading chief executive officers. Where are America's top executives educated? What do they study? Do they typically attend the nation's most elite colleges? Or do they, like millions of other students, choose colleges because of reasons like proximity, cost, and state pride? How important are advanced degrees to their success? Is the MBA a prerequisite for becoming a CEO? I address these questions based on a study of 344 of the country's highest profile CEOs selected to represent a wide range of organizations and businesses. The book will establish a theme that the majority of America's most high-powered CEOs did not attend elite colleges/universities or earn an MBA or graduate from highly selective institutions. Certainly, a significant number did so and were advantaged by the opportunity, but more often they were able to fashion for themselves a high-quality education at a rich array of institutions - public and private, regional and flagship, small and large, religious and secular. What proves more important than what colleges these leading executives attended, is the kinds of deep relationships and mentored experiences they developed. I illuminate these experiences through several vignettes in each chapter.

Stock Market Wizards Oct 26 2022 The third in the bestselling Market Wizards series, this time focusing on the barometer of the economy—the stock market. It has been nearly a decade since the publication of the highly successful The New Market Wizards. The interim has witnessed the most dynamic bull market in US stock history, a collapse in commodity prices, dramatic failures in some of the world's leading hedge funds, the burst of the Internet bubble, a fall into recession and subsequent rumblings of recovery. Who have been the 'market wizards' during this tumultuous financial period? How did some traders manage to significantly outperform a stockmarket that during its heyday moved virtually straight up? This book will feature interviews with a variety of traders who achieved phenomenal financial success during the glory days of the Internet boom. In contrast with the first two Market Wizard books, which included traders from a broad financial spectrum—stocks, bonds, currencies and futures—this volume will focus on traders in the stockmarket.

Off the Menu Oct 22 2019 Marissa Guggiana spent months on the road, interviewing, travelling, photographing, and sharing staff (or family) meals at more than fifty of America's top sustainable restaurants from coast to coast. For every lunch or dinner service, there is a staff meal. The best chefs in the best restaurants take their limitations—affordability, ingredients, and time—and create meals worthy of their compatriots. Ranging from small plates to multi course extravaganzas, the concept is simple: A well-fed staff is a happy one. Guggiana looked for chefs that sourced locally, thoughtfully, with a big eco-picture in mind and a well-fed staff at their heart. The result is simply unprecedented: a no-holds-barred trip behind the kitchen door, introducing you to every chef, sous-chef, line cook, server, bus boy, bartender, hostess, sommelier, dishwasher, and manager—all of whom you will come to adore. *Off the Menu*, an homage to cooking with love and leftovers, makes accessibility a delight. Lush, colorful, homegrown, and delicious, it is packed with lessons, tips, substitutes, anecdotes, and American wine and beer suggestions. At Vetri in Philadelphia, we get a family recipe from Chef Marc Vetri's father and at Anne Quatrano's Bacchanalia, we are whisked into the adjoining Star Provisions, described as a "culinary dream shop," for bahn mi sandwiches. We go from gumbo to hot dogs, chicken and biscuits to duck and lettuce wraps, Tuscan kale salad to Chile Verde. It's all here. The icing on the cake is the chef's profile: Guggiana's own Escoffier Questionnaire, is a playful epicurean take on the Proust questionnaire. Who better to recommend the best coffee shop or the perfect restaurant for a splurge, than the top chefs in the country? Find out where Paul Liebrandt of Corton goes for an after-work meal and the go-to-guilty-pleasure treat of Chef Michael White of Marea. The restaurants included vary from vegetarian to rustic, old-world Italian cuisine, from Asian-fusion to contemporary Mexican, from Scandinavian to Oyster bar. These are the meals that make a staff a family and family part of the staff. Inside *Off the Menu* you will

find 100 recipes from more than 50 of the nation's top restaurants. Each entry includes profiles of the restaurants, Q&As with the chefs, behind-the-scenes trips to the kitchens, and dining out tips, restaurant tricks, and cooking techniques from the cream of the culinary crop. How to Watch Television, Second Edition Jul 19 2019 A new edition that brings the ways we watch and think about television up to the present We all have opinions about the television shows we watch, but

television criticism is about much more than simply evaluating the merits of a particular show and deeming it “good” or “bad.” Rather, criticism uses the close examination of a television program to explore that program’s cultural significance, creative strategies, and its place in a broader social context. *How to Watch Television, Second Edition* brings together forty original essays—more than half of which are new to this edition—from today’s leading scholars on television culture, who write about the programs they care (and think) the most about. Each essay focuses on a single television show, demonstrating one way to read the program and, through it, our media culture. From fashioning blackness in *Empire* to representation in *Orange Is the New Black* and from the role of the reboot in *Gilmore Girls* to the function of changing political atmospheres in *Roseanne*, these essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast, streaming, and cable. Addressing shows from TV’s earliest days to contemporary online transformations of the medium, *How to Watch Television, Second Edition* is designed to engender classroom discussion among television critics of all backgrounds. To access additional essays from the first edition, visit the full list here bit.ly/HowToWatchTV2e.
