[Polesello](#) Jul 19 2019 "En su pintura, Polesello se vale fundamentalmente del diseño geométrico, que combina con efectos ópticos de color y de forma ?produciendo la ilusión de movimiento y con espacios ambiguos. Las figuras así trabajadas adquieren dos caracteres fundamentales que, unidos y potenciados, les otorgan esa especie de fascinación de que se hallan cargadas. Por una parte, la geometría concreta formas simples, llenas de fuerza arquetípica, alusivas a estratos muy profundos del ser y a contenidos primarios de la conciencia. Por otra, el movimiento de que parecen dotadas, la irradiación que emanan las convierte en elementos que atraen poderosamente la atención y las hace aparecer como un llamado que interpela a quien las percibe." [Ricardo Martín-Croas](#), [En la mirada ordenadora de los dioses](#). Octubre, 1978. Libro prolijamente encuadrado en cartón, con reproducciones impresas a todo color sobre papel que refleja fielmente colores, texturas y detalles de las obras.

Enlightening Encounters Aug 20 2019 *Enlightening Encounters* traces the impact of photography on Italian literature from the medium's invention in 1839 to the present day. Investigating the ways in which Italian literature has responded to photographic practice and aesthetics, the contributors use a wide range of theoretical perspectives to examine a variety of canonical and non-canonical authors and a broad selection of literary genres, including fiction, autobiography, photo-texts, and migration literature. The first collection in English to focus on photography's reciprocal relationship to Italian literature, *Enlightening Encounters* represents an important resource for a number of fields, including Italian studies, literary studies, visual studies, and cultural studies.

Carolina Antoniadis Mar 27 2020 Anthological exhibition of Antoniadis (b. Argentina) an artist linked to the art movement "neo decorativism" who started her artistic career in the 1980's reviving what she call "an almost savage pleasure in painting". The shown pieces follow the subjetivism style and her homely scenes are the prevailing reference.

Simone Weil Jan 05 2021 Long before postmodern or deconstructionist ideas became current, Simone Weil was concerned with recognizing the absence of consistency and the continual presence of reversals and contradictions in life. She was someone for whom the task of clarifying her perceptions of reality and meaning was an ongoing one. She challenged contemporary views on such complex issues as human nature, good and evil, divinity and truth. Weil's work offers a voice for those segments of society that are generally under-represented, misrepresented or totally silent in conventional historical and philosophical writings. In this introduction to Simone Weil's ideas, and the political and intellectual circumstances of her work, the authors make Weil's complex and at times elusive ideas accessible to readers. They delineate how her ideas evolved, and provide compelling excerpts from her writings to let her speak for herself. In addition, the authors provide their own interpretation of Weil's work.

[The Politics of Literary Prestige](#) Jul 23 2022 *The Politics of Literary Prestige* provides the first comprehensive study of prizes for Spanish American literature. Covering state-sponsored and publisher-run prizes including the Biblioteca Breve Prize - credited with launching the 'Boom' in Spanish American literature - the Premio Cervantes and the Nobel Prize for Literature, this book examines how prizes have underpinned different political agenda. As new political positions have emerged so have new awards and the role of the author in society has evolved. Prizes variously position the winners as public intellectual, spokesperson on the world stage or celebrity in the context of an increasingly globalized literature in Spanish. Drawing on a range of sources, Sarah E.L Bowskill analyses prizes from the perspective of different stakeholders including states, publishers, authors, judges and critics. In so doing, she untangles the inner workings of literary prizes in Spanish-speaking contexts, proposes the existence of a prizes network and demonstrates that attitudes to cultural prizes are not universal but are culturally determined.
