Accounting Aug 20 2019 With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision-making approach to the material. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.

FARM MACHINERY Nov 03 2020 Designed for the course on Farm Machinery for undergraduate students of Agricultural Engineering, the book deals with the field operations such as tillage, tillage machineries including seedbed refining machineries, sowings and planting machineries, weeding and interculture equipment. A variety of harvesting and threshing equipment for cereals and forage crop including recovery/handling of crop residue are also dealt with in detail. The book discusses machineries used for specialised crops like rice, potato and sugarcane which are the major crops grown in our country. A detailed procedure on estimation of operational cost of agricultural machineries find place in this text. Review questions, multiple choice questions and solved numerical problems are suitably placed at the end of each chapter, wherever required, to help students to check their knowledge and grasping of the subject. Efforts have been made to write this book conforming to the course curriculum to enable students to use this book as a text. The tools, implements or machineries have been described in a simple language supported with line diagrams and photographs for better understanding. The students will find this book valuable for their continuing education as well as for various competitive examinations. Besides B.Tech (Agricultural Engineering) students, the book is also beneficial for the students of Diploma in Agricultural Engineering and B.Sc. Agricultural Sciences for their paper on 'Farm Machinery'.
